

Potty Training Starter Kit

As the time to begin potty training nears, being prepared with the right equipment will make it easier to start and follow a consistent routine. When the time comes, bring out the tools for training and have a celebration.

Turn this card over for the basics.

Potty Training Starter Kit

- ★ Potty seat. Starting small when it comes to the potty makes it easier for your child to go. Kids can take ownership of their potty by personalizing it with stickers or markers.
- ★ Rewards work wonders with toddlers. Stock up on the kind of goodies that best motivate your child and set up a system to positively encourage progress and celebrate training successes.
- ★ Learning tools. Potty training books, videos and CDs are a great way to introduce toddlers to potty training and keep them interested.
- ★ Training pants that look like Big Kid® underwear will mark the move out of diapers and help motivate your child to stay dry like older kids.
